MOST OF OUR DISHES CAN BE PREPARED IN A NUT-FREE VERSION OR ADAPTED TO YOUR ALLERGIES! LET US KNOW AND WE'LL FIX IT FOR YOU!

RAW PIZZAS

"RAW VEGAN PIZZA: THE MAKING OF"

Raw "cooking" by dehydration is always below 42 degrees, this is the reason why it takes between 8 and 12 hours to be flavourful and ready to eat!

But the preparation starts 24 hours before the creation of the dough, when we begin to sprout the buckwheat in a warm place then we dehydrate it for a further 10 hours, to enable us to turn it into flour and mix it with the flaxseeds and other organic and local ingredients.

It is a long process but it worth the wait and we sincerely hope you will enjoy it!

CHEDDAR & FUNGHI 165
